# «Iron Ladies»

**Open House Day of the Iron Library**  
**Sunday 11 May 2014, 1 – 5 p.m.**

The Iron Library opens its doors on Mother's Day for everyone who has never before or always been interested in iron literature and the history of technology. We show literature and illustrations for mothers, housewives, and for the whole family. The Corporate Archives of Georg Fischer take us back to the time of our grandmothers and exhibit household appliances. Children can learn about the trade of medieval iron ore mines by doing handicrafts.

- + Literature for mothers (and for the whole family)
- + Treasures from the library collections
- + Tour through the Iron Library
- + Objects from the Corporate Archives of Georg Fischer
- + Handicrafts with Georg Agricola for children (age of 5 up)
- + Iron Library quiz (with first prize!)
- + Free beverages

We are looking forward to your visit!
